

ENVIRONMENTAL POLICY STATEMENT

Lester Control Systems Ltd. is committed to produce and deliver quality products that meet the requirements of our customers. The company recognises that its various day-to-day operations can impact on the environment in a number of ways. We are committed to minimise any potential adverse effects on the environment wherever it has the power to do so. We will ensure that our commitments are appropriate to the purpose and context of our organisation, including the nature, scale and environmental impacts of our activities, products and services.

Lester Control Systems Ltd. integrate environmental considerations into our normal business decision-making process.

To help sustain and protect the environment we will:

- Minimise waste in all parts of our business.
- Monitor and work with our suppliers and other third parties and influence them to achieve similar environmental standards to those of our organisation.
- Comply with all relevant environmental legislation and other regulations and requirements that relate to our aspects, and to which the company subscribes.
- Commit to the protection of the environment.
- Commit to a programme of continual improvement and prevention of pollution.
- Through communication and training, ensure that all staff understand the policy and how they can influence environmental performance.
- Communicate our environmental policy as appropriate to customers, suppliers, and other interested parties.
- Provide a framework for setting and reviewing environmental objectives and targets through the long-term strategies of our organisation.
- Make our environmental policy available to all interested parties.

Lester Control Systems Ltd are committed to the continual improvement of our integrated management system to the requirement of BS EN ISO 14001:2015 and will use appropriate monitoring and measurement to enhance our environmental performance.
